10 Read the blog post. Decide if the sentences are true (T) or false (F).

Two unusual houses

There are some very unusual houses in the world and last year, I went to see two of them. In the UK, there's a very small house in a village called Conwyn. It only has two rooms but thousands of tourists visit the house every year. The whole house is the same size as my bedroom! The other one I went to was Keret House. It's a very thin house in Warsaw in Poland. In some places, it's less than one metre wide! It's a very simple place, with only a bed, a desk, a bathroom and a very small kitchen. Nobody lives there all the time, but artists often stay there and they draw and paint in it. They enjoy working there because there isn't any noise. There are lots of other houses like this where artists can go and stay for free all over the world. Art-lovers pay for these houses so artists can think about their work. It's a great idea because it's unusual for them to earn a lot of money.

- 1 Keret House is in the UK. _____
- 2 Artists come to work in Keret House. _____
- 3 Artists like the house because it's small.

- 4 Art-lovers pay to stay in Keret House. _____
- 5 Most artists don't earn a lot of money. _____
